Omschrijving

Plastic stackable container / plate tray in Euro standard size 400 x 300 mm. The stackable container has a smooth bottom and sealed handles. With an internal height of 230 mm, the container is highly suitable for transporting and dust-free storage of plates and tableware. Plates with a diameter of up to 215 mm can be placed vertically in the container. This way, the plates can be safely transported without damage. Ideal for plate rental and on-site catering. Thanks to the comfortable handles, the stackable container is also pleasant to handle, even when fully loaded with plates. Within the industrial sector, this stackable container is widely used for storing various cargoes. The Euro standard stackable containers can be stacked with other Euro containers and perfectly combined with standardized pallets, roll containers, and mobile bases.
