Description

Natural white plastic bucket Ø300 x H280 mm with a capacity of 12 liters. The food-grade bucket is made of thick and smooth-walled plastic, making it suitable for heavy-duty applications. The bucket features a stainless steel handle and a bottom rim to prevent abrasion. It is commonly used in the food industry for transporting and storing food and chemicals, even in freezing environments. Temperature resistance from -30°C to +70°C. Thanks to its smooth inner walls, it is hygienic and easy to clean.
