| Article number | 81581110 |
| Weight (kg) | 0,8 kg |
| Temperature range | -30°C to +70°C |
| Pallet quantity | 180 |

## Features

**With stainless steel handle**

## Description

Nature-white plastic bucket Ø290 x H310 mm with pouring spout and a capacity of 12 liters. The food-grade bucket is made of thick and smooth-walled plastic, making it suitable for heavy-duty applications. The bucket is equipped with a stainless steel handle and a bottom rim to prevent abrasion. Thanks to the pouring spout, the bucket is easy to empty without spills. The plastic bucket is commonly used in the food industry. Suitable for the transport and storage of food and chemicals, even in freezing environments. Temperature resistance from -30°C to +70°C. Thanks to the smooth inner walls, it is hygienic to use and easy to clean. The plastic bucket has a capacity indication on the inner wall.
