Article number: 9.947.314.012

Bucket 20 litre - normal duty

Product specifications

Uitwendig (LxBxH)	280 mm
Capacity	20 liter
Color	Black
Material	Recycled HDPE
Article number	9.947.314.012
Weight (kg)	1,3 kg

Features

With galvanised hanger

Description

Sustainable Plastic Bucket: An Environmentally Conscious Choice

Looking for a reliable and environmentally conscious solution for your storage needs? Allow us to introduce you to our high-quality plastic bucket made from regenerated material. With an impressive diameter of 380 millimeters and a height of 280 millimeters, this bucket offers a spacious capacity of 20 liters, perfect for various applications, from household use to industrial purposes.

Robust Design for Long-Term Use

This bucket is designed with durability in mind. Thanks to the bottom rim, specially designed to prevent abrasion, you can rely on long-lasting performance, even under heavy usage. Whether it's carrying heavy loads or storing various materials, this bucket ensures reliability.
