Description

Black plastic case with black insert trays. The black case has the Euro norm size of 400 x 300 mm and a height of 133 mm. The case is composed of a black stacking container, a black hinged lid with two snap-slide locks and foam in the lid, a suitcase handle at the front, and black insert trays with a customizable layout. The foam in the lid ensures that the insert trays are securely sealed during transport with the lid closed. This prevents the contents from ending up in another insert tray. This makes the case highly suitable for the safe storage and transportation of parts and small items. The plastic case can also be stacked with the lid along with all other Euro norm cases and stacking containers.
