Description

Pallet box type CB1 in dimensions 1200 x 800 mm, equipped with hygienically smooth inner walls. The light blue box is highly suitable for use in the food industry. CB1 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB1 is manufactured in one piece with three molded runners. Breakage at these sensitive points is minimized. The CB1 pallet box is stable, impact-resistant, and has a low weight; almost 5 kilograms lighter than comparable heavy-duty boxes. The pallet box is made of high-quality foamed HDPE plastic, giving the CB1 extremely high impact resistance. The lower wall panels of the pallet box are reinforced to prevent damage from forklift collisions. The light blue CB1 can also be easily equipped with transponders for tracking and tracing of the box and cargo.
