Description

Palletbox type CB1 in the dimensions of 1200 x 800 mm, equipped with hygienically smooth inner walls. The red box is highly suitable for use in the food industry. CB1 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB1 is produced in one piece with three molded runners, minimizing breakage at these vulnerable points. The CB1 pallet box is stable, impact-resistant, and lightweight, almost 5 kilograms lighter than comparable heavy-duty boxes. Made of high-quality foamed HDPE plastic, the pallet box offers extremely high impact resistance. The bottom wall panels of the pallet box are additionally reinforced to prevent damage from forklift collisions. Furthermore, the red CB1 can easily be equipped with transponders for tracking and tracing of the box and its contents.
