Description

Palletbox type CB1 in the dimensions of 1200 x 800 mm, equipped with hygienically smooth inner walls. The yellow box is highly suitable for use in the food industry. CB1 pallet boxes stack perfectly with similar boxes, seamlessly integrating into an existing pool of pallet boxes. The CB1 is produced in one piece with three molded runners, minimizing breakage in these vulnerable areas. The CB1 pallet box is stable, impact-resistant, and lightweight, almost 5 kilograms lighter than comparable heavy-duty boxes. Made of high-quality foamed HDPE plastic, the pallet box exhibits extremely high impact resistance. The lower wall panels of the pallet box are reinforced to prevent collision damage from forklifts. Additionally, the yellow CB1 can easily be equipped with transponders for tracking and tracing of the box and its cargo.
