## Description

Mobile blue pallet box of type CB1 on four wheels. Dimensions 1200 x 800 mm. The blue CB1 pallet box has smooth, flat inner walls and stands on four galvanized swivel wheels. The swivel wheels have a diameter of 125 mm and are equipped with a non-marking rubber tread. They are therefore shock-resistant, have good sound insulation, and leave no marks on the floor. The blue pallet box has closed side walls and a reinforced bottom. The lower wall panels of the CB1 box are extra reinforced to prevent collision damage from forklifts. The mobile CB1 pallet box is made of high-quality foamed HDPE plastic, making it exceptionally strong and impact-resistant. The blue CB1 pallet box is manufactured in one piece and has three co-molded pallet skids. Thanks to these skids, the mobile CB1 can be easily tilted with a (forklift) turntable. The flat, smooth inner walls make the mobile CB1 pallet box a multifunctional pallet box for the industry. The mobile version increases efficiency and ensures a flexible workplace layout.
