Description

Palletbox type CB3 in the dimensions of 1200 x 1000 mm, equipped with hygienically smooth inner walls. The green box is highly suitable for use in the food industry. CB3 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB3 is produced in one piece with three molded runners. Breakage at these sensitive points is thus minimized. The CB3 pallet box is stable, impact-resistant, and has a low weight; nearly 10 kilograms lighter than comparable heavy-duty boxes. The green pallet box is made of high-quality foamed HDPE plastic, providing extremely high impact resistance. The bottom wall panels of the pallet box are additionally reinforced to prevent collision damage from forklifts. The green CB3 can also be easily equipped with transponders for tracking and tracing of the box and cargo.
