Description

Pallet box type CB3 with dimensions of 1200 x 1000 mm, featuring hygienically smooth inner walls. The grey box is highly suitable for application in the food industry. CB3 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB3 is produced in one piece with three molded runners, minimizing breakage at these sensitive points. The CB3 pallet box is stable, impact-resistant, and lightweight; nearly 10 kilograms lighter than comparable heavy-duty boxes. Made of high-quality foamed HDPE plastic, the CB3 exhibits extremely high impact resistance. The bottom wall panels of the pallet box are additionally reinforced to prevent damage from forklift impacts. Moreover, the grey CB3 can easily be equipped with transponders for tracking and tracing of the box and its contents.
