Description

Pallet box type CB3 in dimensions 1200 x 1000 mm, equipped with hygienically smooth inner walls. The light blue box is highly suitable for use in the food industry. CB3 pallet boxes stack perfectly with similar boxes, making them seamlessly integrate into an existing pool of pallet boxes. The CB3 is manufactured in one piece with three molded runners. Breakage at these sensitive points is minimized. The CB3 pallet box is stable, impact-resistant, and has a low weight; almost 10 kilograms lighter than comparable heavy-duty boxes. The pallet box is made of high-quality foamed HDPE plastic, giving the CB3 extremely high impact resistance. The bottom wall panels of the pallet box are additionally reinforced to prevent damage from forklift collisions. Moreover, the light blue CB3 can easily be equipped with transponders for tracking and tracing of the box and cargo.
