Description

Pallet box type CB3 with dimensions of 1200 x 1000 mm, equipped with hygienically smooth inner walls. The red box is highly suitable for use in the food industry. CB3 pallet boxes stack perfectly with similar boxes, effortlessly integrating into an existing pool of pallet boxes. The CB3 is produced in one piece with three molded runners. Breakage at these sensitive points is minimized as a result. The CB3 pallet box is stable, impact-resistant, and has a low weight; almost 10 kilograms lighter than comparable heavy-duty boxes. The pallet box is made of high-quality foamed HDPE plastic, providing extremely high impact resistance. The bottom wall panels of the pallet box are additionally reinforced to prevent damage from forklifts. Moreover, the red CB3 can be easily equipped with transponders for tracking and tracing of the box and its contents.
