Description

Mobile yellow pallet box of type CB3 on four wheels. Dimensions 1200 x 1000 mm. The yellow CB3 pallet box has smooth, flat inner walls and is mounted on four galvanized swivel wheels. The swivel wheels have a diameter of 125 mm and are equipped with a non-marking rubber tread. As a result, they are shock-resistant, provide good sound insulation, and do not leave marks on the floor. The yellow pallet box has closed side walls and a reinforced bottom. The lower wall panels of the yellow CB3 box are extra reinforced to prevent collision damage from forklifts. The mobile CB3 pallet box is made of high-quality foamed HDPE plastic, making it exceptionally strong and impact-resistant. The yellow CB3 pallet box is manufactured in one piece and has three integral pallet runners. Thanks to these runners, the mobile CB3 can be easily tilted with a (forklift) turntable. The flat, smooth inner walls make the mobile CB3 pallet box a multifunctional pallet box for the industry. The mobile version increases efficiency and provides flexible workplace layout.
