Description

Stacking bin with lid in Euro standard size 600 x 400 mm. This model is composed of a fully enclosed stacking container with a grey hinged lid and two snap-slide closures. The lidded container is stackable with Euro standard cases, stacking containers, and other Euro standard lidded containers. Due to its standardized dimensions, the lidded container perfectly complements standardized pallets, rolling containers, and mobile bases. Goods can be safely transported and protected from dust in these lidded containers. We provide foam interiors, seals, and label holders as accessories for the lidded containers.
