Description

Stacking bin with lid measuring 600 x 400 x H190 mm is a Euro norm stacking container equipped with a gray hinged lid featuring snap-slide closures. The lid container has a smooth, closed bottom and sealed side walls. The plastic lid is detachable when in an open position. The two snap-slide closures make opening the lid effortless. The sealable lid prevents the load from getting lost, damaged, or contaminated during transportation. Due to standardized dimensions, the lid container can be stacked with other Euro containers, both with and without lids. Additionally, the lid container can be efficiently combined with standardized pallets, bases, and roll containers without losing space. We provide foam interiors, seals, and label holders as accessories for the lid containers.
