Description

Black plastic stacking bin with lid in Euro standard size 600 x 400 mm. The container is composed of a stacking bin, blue hinged lid, and two snap-slide closures. The lidded container is fully enclosed, including the handles. The bottom features a reinforced rib construction, making the lidded container highly suitable for applications with heavy loads. Due to its Euro standard size, the lidded container can be seamlessly combined with all other Euro containers as well as standardized pallets, mobile bases, and roll containers. Additionally, the container is stackable with the lid. The snap-slide closures ensure secure closure and easy re-opening of the lidded container. The lockable lid prevents the cargo from getting lost, damaged, or contaminated during transport.
