Features

Distribution bins are nestable and lid-stackable.

The distribution bins are provided with textured areas on the lid for stickers.

With bumper surfaces to prevent bins being displaced on roller tracks.

Distribution bins: space saving up to 65% in nested condition.

The nearly straight walls of the distribution bin ensure maximum volume.

Distribution bins have integrated label holders on both short sides.

Description

Fully enclosed distribution crate sized 400 x 300 mm. Made from food-grade plastic. The lid consists of two hinged halves that fit perfectly together. The distribution crate is lid-stackable and nestable when the lid is open. Significant space savings are achieved during return transport and empty storage of nested distribution crates. The distribution crate is multiply sealable and highly suitable for storing and transporting valuable and confidential products.
