Distribution bins are nestable and lid-stackable.

The distribution bins are provided with textured areas on the lid for stickers.

With bumper surfaces to prevent bins being displaced on roller tracks.

Distribution bins: space saving up to 65% in nested condition.

The nearly straight walls of the distribution bin ensure maximum volume.

Distribution bins have integrated label holders on both short sides.

Description

Fully enclosed distribution container measuring 600 x 400 mm. Manufactured from food-grade plastic. The lid consists of two hinging lid halves that fit perfectly together. The distribution container is lid-stackable and nestable when the lid is open. Considerable space saving is achieved during return transport and empty storage of nested distribution containers. The distribution container is multi-sealable and highly suitable for storing and transporting valuable and confidential products.
