Material	PP
Article number	8.DT806012.0
Weight (kg)	1,75 kg
Temperature range	-20°C to +80°C
Bottom	Perforated
Load capacity (kg)	15
Pallet quantity	36

Features

- **Perforated on all sides**
- **The drying crate is equipped with 4 legs**
- **Perfect for drying due to optimal air circulation**

Description

Drying crate in the size of 800x600xH120mm. The drying trays are specially designed for efficiently drying vegetables and fruits. With perforations and 4 sturdy legs, we ensure optimal air circulation, allowing warm air to flow freely and perfectly dry your products. Our low design enables easy stacking of multiple crates, making it effortless to dry large quantities of products.
