Euro pallet - H1 - 1200 x 800 mm (with rims - without centring ridges)

Product specifications

Uitwendig (LxBxH)	1200 × 800 × 160 mm
Dynamic load capacity	1250 kg
Color	Grey
Material	HDPE
Article number	83100801
Weight (kg)	18 kg
Temperature range	-30°C to +40°C, briefly up to +90°C
Static load capacity	5000 kg
Edge height	7 mm
Load capacity in racks	1000
Pallet quantity	15

Features

- **Dimensions: 1200 x 800 mm with a height of 160 mm**
- **Made of plastic and suitable for use in food environments (food-safe)**
- **Equipped with three length runners for stability**
- **Smooth and closed design on both the bottom of the feet and the runners, free from ridges**
- **Features a 7 mm safety edge and no central locking on the top deck**
- **Static load capacity of 5000 kg, dynamic load capacity of 1250 kg, and suitable for 1000 kg in pallet racks**
- **Temperature resistance ranging from -30°C to +40°C, briefly up to +90°C**

Description

Plastic pallet 1200 x 800 mm with a height of 160 mm. This heavy-duty H1 pallet is equipped with welded pallet runners and blocks, preventing any dirt from penetrating. The H1 has a fixed tare weight of 18 kg. This makes the H1 suitable for use in automatic systems, for accurately weighing the load, and for exchanging within a pooling system. The vulnerable parts of the Euro H1 pallet are reinforced. The H1 has extra heavy-duty runners and a reinforced, slanted transition from the pallet runners to the blocks, minimizing the risk of breakage. The Euro pallet has a temperature resistance from -30°C to +40°C, briefly up to +90°C and is easy to clean. H1 Euro pallets have a long lifespan, even with intensive use
