Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 139 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.3x5.UO
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Maximum glass height	125
Maximum Ø glass	106
Pallet quantity	60

Features

Pay attention before ordering!

Glass dimensions are decisive when choosing the crate: measure the height and diameter at the widest point.

Glass crate sized 600x400 mm, 154 mm high, designed for cleaning, storage, and transportation of glassware and tableware.

Suitable for glasses and cups with a maximum height of 125 mm and maximum Ø of 106 mm; choose another crate if the glass doesn't fit within these dimensions.

The crate features a single division of 15 compartments, offering individual spaces for each glass and ensuring protection against scratches and breakage.

Suitable for cups and tumbler glasses; recommends a crate with double compartments for delicate glassware with a base.

Optimal washing results for glasses cleaned in this crate due to coarse perforated side walls and bottom allowing easy access for rinsing water and cleaning agents.

Euronorm glass crates are stackable and combinable with other Euronorm plate racks and stacking crates.

They can be stored and transported without space loss on standardized bases, rolling containers, and pallets.

For more information, contact our product advisors.

Description

Pay attention before placing your order!

The dimensions of the glass are crucial when selecting the crate. Measure the height of the glass and the diameter at the widest point.

Glass crate measuring 600x400 mm with a height of 154 mm for cleaning, storage, and transportation of glassware and dishes. This crate is suitable for glasses and cups with a maximum glass height of 125 mm and a maximum Ø of 106 mm. The glass size determines the most suitable glass crate. If the glass is taller than 125 mm or significantly narrower than Ø 106 mm, choose a different glass crate in this series. We are happy to offer advice.

The glass crate is equipped with a single partition of 15 compartments, providing 15 individual slots for glasses and cups. By preventing the glasses from touching each other, they are optimally protected against scratches and breakage during cleaning, storage, and transport. This crate is equipped with a single partition and is suitable for cups and tumbler glasses. If delicate glassware with a base needs to be stored in this crate, we recommend the glass crate with a double partition (item number 30.115.3x5.O+B). The most vulnerable part of the glass, the base, receives better support in a crate with upper and lower compartmentalization.

Glasses cleaned in a glass crate achieve optimal washing results. Thanks to the coarse perforated side walls and bottom, the rinse water and cleaning agent easily access the contents. The Euronorm glass crates are stackable and compatible with other plate crates and stackable crates with Euronorm dimensions. Additionally, the glass crates can be stored and transported without losing space on standardized supports, roll containers, and pallets. Contact our product advisors for more information.
