Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Colorcode	RAL 7040
Pallet quantity	72

Features

Also available as a complete basket including compartment dividers in various designs on our online shop.

Description

Glass crate (600 x 400 x H 130 mm - 24 liters) from the BASIC glass crate series. Highly suitable for transporting and rinsing glasses. Maximum glass height: 103 mm. This stable glass crate can be equipped with a bottom compartment divider (O) and a top compartment divider (B). For available compartment dividers, refer to 'Accessories'. The food-safe crate has a coarse perforated, reinforced bottom and coarse perforated side walls. Hence, rinse water and cleaning agents have good access to cups or glasses. With compartment dividers, the BASIC glass crates are ideal for dual use: as rinsing crates and storage crates. Equipped with 4 open handles for optimal handling. The BASIC glass crates stack easily and very stably with our Euro containers and have the exact same color as the stackable crates from the SOLID LINE. This modern and robust crate perfectly complements our Euro containers and roll containers and is furthermore well suited for universal use.
