Glass crate BASIC - 600 x 400 x H 154 mm for 12 glasses - max. height 125 mm and max. Ø 116 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 140 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.3x4.U+O
Weight (kg)	2,3 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
Maximum glass height	125
Maximum Ø glass	116

Features

- **Pay attention before ordering!**
- **Glass dimensions are crucial for crate selection: measure the height and diameter at the widest point.**
- **Plastic glass crate for rinsing, storing, and transporting 12 glasses or cups.**
- **Suitable for glassware and tableware with a maximum height of 125 mm and maximum Ø of 116 mm.**
- **If the glass is taller than 125 mm or much narrower than Ø 116 mm, this crate is not suitable. Check our other glass crates in this series.**
- **The 600 x 400 mm crate is 130 mm high with a single compartment of 12 sections; glasses do not touch each other.**
- **Suitable for cups and tumbler glasses; recommending the crate with double compartments for delicate glassware with a base.**
- **The compartmentalization ensures safe cleaning, storage, and transportation of glassware; coarse perforated side walls and base allow good access to rinse water and cleaning agents.**
- **Euronorm sized, compatible with other plate racks and stacking crates; stackable without space loss on standardized bases, rolling containers, and pallets.**
- **For more information, contact our product advisors.**

Description

Attention before placing your order!

The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at the widest point.

Plastic glass crate for rinsing, storing, and transporting 12 glasses or cups. This crate is suitable for glassware and tableware with a maximum height of 125 mm and a maximum Ø of 116 mm. The glass size is crucial when selecting the crate. If the glass is taller than 125 mm or much narrower than Ø 116 mm, this crate is not suitable. Please check our other glass crates in this series.
The glass crate measures 600 x 400 mm and is 130 mm high with a single compartment of 12 sections. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other. This crate is equipped with a single compartment and is therefore suitable for cups and tumbler glasses. If you intend to transport fragile glassware with a base in this crate, we recommend the glass crate with a double compartment (item number 30.115.3x4.O+B). The most vulnerable part of the glass, the base, is better protected against breakage in a crate with upper and lower compartmentalization. The glassware is safely cleaned, stored, and transported thanks to the compartmentalization. With the coarse perforated side walls and bottom, the rinse water and cleaning agent have good access to the glassware, achieving a clean washing result. The glass crates have a Euro norm size and are therefore perfectly combinable with other plate crates and stackable crates with Euro norm dimensions. Moreover, the glass crates can be stacked without losing space on standardized supports, roll containers, and pallets. For more information, please contact our product advisors.
