Glass crate BASIC - 600 x 400 x H 154 mm for 15 glasses - max. height 125 mm - max. Ø 106 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 140 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.3x5.U
Weight (kg)	1,9 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Maximum glass height	125
Maximum Ø glass	106
Pallet quantity	60

Features

- **Dimensions of the glass determine the choice of the crate: measure the height and diameter at the widest point.**
- **Glass crate of 600x400 mm, height 154 mm for cleaning, storage, and transport of glassware and tableware.**
- **Suitable for glasses/cups with a maximum height of 125 mm and maximum Ø 106 mm.**
- **Glass size determines the suitable crate; choose another crate for glass taller than 125 mm or much narrower than Ø 106 mm.**
- **Equipped with a single division of 15 compartments, protects glasses from scratches/breakage during cleaning/storage/transport.**
- **Suitable for cups and tumbler glasses; recommend a crate with double division for fragile glassware with a base.**
- **Coarsely perforated side walls and base for optimal washing results and cleaning.**
- **Stackable and combinable with other Euro standard dimensions like plate racks and stacking crates.**
- **Suitable for storage and transport on standardized bases, rolling containers, and pallets without loss of space.**
- **Seek advice from product advisors for more information.**

Description

Attention before placing your order!

The dimensions of the glass determine the choice of crate. Measure the height of the glass and the diameter at the widest point.

Glass crate 600x400 mm with a height of 154 mm for cleaning, storage, and transportation of glassware and dishes. This crate is suitable for glasses and cups with a maximum glass height of 125 mm and a maximum Ø of 106 mm. The size of the glass determines which glass crate is most suitable. If the glass is taller than 125 mm or much narrower than Ø 106 mm, choose another crate in this series. We are happy to provide advice.

The glass crate is equipped with a single partition of 15 compartments, providing 15 individual spaces for glasses and cups. As the glasses do not touch each other, they are optimally protected against scratches and breakage during cleaning, storage, and transportation. This crate is equipped with a single partition and is therefore suitable for cups and tumbler glasses. If fragile glassware with a base needs to be stored in this crate, we recommend the glass crate with a double partition (item number 30.115.3x5.O+B). The most vulnerable part of the glass, the base, is better supported in a crate with upper and lower compartment partitions.

Glasses cleaned in a glass crate achieve optimal washing results. Thanks to the coarsely perforated side walls and bottom, the rinse water and detergent can easily reach the contents. The Euro norm glass crates are stackable and can be combined with other plate crates and stackable crates with Euro norm dimensions. Moreover, the glass crates can be stored and transported on standardized supports, roll containers, and pallets without losing space. For more information, please contact our product advisors.
