Glass crate BASIC - 600 x 400 x H 154 mm for 24 glasses - max. height 125 mm - max. Ø 85 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 140 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.4x6.U
Weight (kg)	1,77 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	125
Maximum Ø glass	85
Pallet quantity	60

Features

- **Glass dimensions determine the appropriate crate: measure the height and diameter at the widest point.**
- **Euronorm crate for rinsing, storing, and transporting glassware.**
- **Single compartment accommodates 24 glasses/cups: max height of 125 mm and max Ø of 85 mm.**
- **Not suitable if glass is taller than 125 mm or much narrower than Ø 85 mm; explore other crates in the series.**
- **Crate of Euronorm size 600 x 400 mm, height 154 mm, with compartment for 24 glasses.**
- **Glasses do not touch each other, ensuring optimal protection during storage, transport, and dishwasher cleaning.**
- **Suitable for cups and tumbler glasses; recommends crate with double compartments for fragile glasses with a base.**
- **Coarsely perforated side walls and base for good access to rinse water/cleaning agents and achieving a clean wash result.**
- **Euronorm size allows combination with other plate racks/stackable crates.**
- **Stackable on standardized bases, rolling containers, and pallets without loss of space.**
- **Contact product advisors for further information.**

Description

Attention before placing your order!

The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at the widest point.

Euro norm crate for rinsing, storage, and transportation of glassware. The glass crate with a single compartment accommodates 24 glasses or cups with a maximum height of 125 mm and a maximum Ø of 85 mm. The dimensions of the glassware are crucial in selecting the appropriate glass crate. If the glass is taller than 125 mm or much narrower than Ø 85 mm, this crate is not suitable. Check the other glass crates in this series for a more suitable crate.

This crate has Euro norm dimensions of 600 x 400 mm and is 154 mm high. The glass crate with compartmentalization accommodates 24 glasses. The glasses do not touch each other, ensuring optimal protection of the glassware during storage, transportation, and cleaning in dishwashers. This crate is equipped with a single compartment and is therefore suitable for cups and tumbler glasses. Planning to transport fragile glassware with a base in this crate? Then we recommend the glass crate with a double compartment (item number 30.115.4x6.O+B). The most vulnerable part of the glass, the base, is better protected against breakage in a crate with upper and lower compartmentalization. Glassware and dishes are optimally cleaned in a glass crate. Thanks to the coarsely perforated side walls and bottom, the rinse water and cleaning agent have good access to the glassware, achieving a clean washing result.

The glass crates have Euro norm dimensions, making them perfect for combining with other plate crates and stackable crates with Euro norm sizing. Moreover, the glass crates can be stacked without losing space on standardized supports, roll containers, and pallets. For more information, please contact our product advisors.
