Glass crate BASIC - 600 x 400 x H 154 mm for 33 glasses - max. height 125 mm - max. Ø 75 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 140 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.33.UO
Weight (kg)	2,3 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Maximum glass height	125
Maximum Ø glass	75
Pallet quantity	60

Features

- **Dimensions: 600 x 400 mm with a height of 154 mm.**
- **Capacity for 33 glasses.**
- **Suitable for glasses with a maximum height of 125 mm and a maximum diameter of Ø 75 mm.**
- **Designed for storage, cleaning, and transport of glasses.**
- **Euro standard size for easy combination with other crates.**
- **Equipped with a double compartment for optimal protection of glasses with a base.**
- **Glasses do not touch each other, providing optimal protection during storage, transport, and cleaning in dishwashers.**
- **Possibility of stable stacking without space loss on standard frames, roll containers, and pallets.**

Description

Attention before placing an order!
The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at the widest point. Euro standard crate for rinsing, storing, and transporting glassware. The glass crate with a double compartment accommodates 33 glasses with a maximum height of 125 mm and a maximum Ø of 75 mm. The dimensions of the glassware determine the choice for the right glass crate. If the glass is much lower than 125 mm or much narrower than Ø 75 mm, this crate is not suitable. Check the other glass crates in this series for a better fitting crate. This crate has Euro standard dimensions of 600 x 400 mm and is 154 mm high. The glass crate accommodates 33 glasses. The glassware is completely clean after washing in the glass crate. Due to the coarse perforated side walls and bottom, the rinsing water and cleaning agent have good access to the glassware. This achieves a clean washing result. The glasses do not touch each other, ensuring optimal protection during storage, transport, and cleaning in dishwashers. Due to the double compartment division, this glass crate is highly suitable for glassware with a base. The most fragile part of a glass is its base. In this glass crate with upper and lower compartment divisions, this part of the glass is optimally supported and protected as well. If you want to transport cups or tumbler glasses, a glass crate with a single compartment division is also suitable. The glass crates have Euro standard dimensions, making them perfect for combining with other plate bins and stacking crates with Euro standard measurements. Furthermore, the glass crates can be stacked without space loss on standardized frames, roll containers, and pallets.
