Product specifications

Uitwendig (LxBxH)	600 × 400 × 154 mm
Inwendig (LxBxH)	568 × 368 × 140 mm
Capacity	29.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.115.5x8.U
Weight (kg)	2 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	125
Maximum Ø glass	65
Pallet quantity	60

Features

- **Glass dimensions are crucial for crate selection: measure glass height and diameter at the widest point.**
- **Plastic crate with a single compartment for 40 glasses or cups, sized 600x400 mm and 154 mm high.**
- **Suitable for cleaning, storage, and transport of glassware and tableware with a max glass height of 125 mm and max Ø of 65 mm.**
- **Crate size and layout determined by the content; choose another crate in the series if glass is taller than 125 mm or wider than Ø 65 mm.**
- **Single-compartment crate provides 40 individual slots for glasses/cups, preventing scratches and breakage during cleaning, storage, and transport.**
- **Equipped with a single division suitable for cups and tumbler glasses; advises choosing the crate with double compartments for glassware with a base if transportation is intended.**
- **Glassware is thoroughly cleaned in the crate due to easy access of rinse water and cleaning agents through coarse perforated side walls and base.**
- **Stackable glass crates, compatible with other Euro standard-sized plate racks and stacking crates.**
- **Allows storage and transport without space wastage on standardized bases, rolling containers, and pallets.**
- **Contact product advisors for further information.**

Description

Attention before placing your order!

The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at the widest point.

Plastic crate with a single compartment for 40 glasses or cups. The glass crate measures 600x400 mm and has a height of 154 mm. The glass crate is suitable for cleaning, storage, and transportation of glassware and dishes with a maximum glass height of 125 mm and a maximum Ø of 65 mm. The size and layout of the crate are determined by its contents. If the glass is taller than 125 mm or wider than Ø 65 mm, choose another glass crate in this series. We are happy to provide advice.

The glass crate with a single compartment provides 40 individual spaces for glasses and cups. The glasses do not touch each other, ensuring optimal protection against scratches and breakage during cleaning, storage, and transportation. This crate is equipped with a single compartment and is suitable for cups and tumbler glasses. If you intend to transport glassware with a base in this crate, we recommend choosing the glass crate with a double compartment (item number 30.115.5x8.O+B). The most fragile part of the glass, the base, is better protected against breakage in a crate with upper and lower compartmentalization. Glassware becomes completely clean after cleaning in the glass crate. This is because the rinse water and cleaning agent have easy access to the contents of the crate due to the coarse perforated side walls and bottom.

The glass crates are stackable and perfectly combinable with other plate crates and stackable crates with Euro norm dimensions. Moreover, the glass crates can be stored and transported on standardized supports, roll containers, and pallets without losing space. For more information, please contact our product advisors.
