Glass crate BASIC - 600 x 400 x H 171 mm for 12 glasses - max. height 143 mm - max. Ø 116 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 171 mm
Inwendig (LxBxH)	568 × 368 × 158 mm
Capacity	33 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.117.3x4.UO
Weight (kg)	2,34 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42492E+12
Maximum glass height	143
Maximum Ø glass	116
Pallet quantity	52

Features

- **Glass dimensions are crucial in selecting the crate; measure glass height and diameter at the widest point.**
- **Plastic glass crate designed for rinsing, storing, and transporting 12 glasses with a maximum glass height of 143 mm and maximum Ø of 116 mm.**
- **Incorrect glass size (above 143 mm or significantly narrower than Ø 116 mm) makes this crate unsuitable; consider other crates in the series.**
- **The 600 x 400 mm glass crate is 171 mm high with a double compartment containing 12 sections, providing each glass its own unit.**
- **Glasses don't touch, ensuring optimal protection during storage, transport, and dishwasher cleaning.**
- **Double compartment safeguards the most vulnerable part - the foot of the glass.**
- **Glassware is entirely clean after cleaning in this crate due to coarse perforated side walls and bottom enabling water and cleaning agents access to glassware.**
- **Euronorm-sized glass crates can seamlessly combine with other Euronorm-sized plate racks and stacking crates.**
- **Stackable without space loss on standardized bases, rolling containers, and pallets. Contact product advisors for further information.**

Description

Pay attention before ordering!

The glass dimensions determine the choice of the crate. Measure the height of the glass and the diameter at the widest point.

Plastic glass crate for rinsing, storing, and transporting 12 glasses. This crate is suitable for glassware with a maximum height of 143 mm and a maximum Ø of 116 mm. The glass size is crucial when selecting the crate. If the glass is taller than 143 mm or much narrower than Ø 116 mm, this crate is not suitable. Check out our other glass crates in this series.

The glass crate measures 600 x 400 mm and is 171 mm high with a double compartment of 12 sections. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other, thus ensuring optimal protection during storage, transport, and cleaning in dishwashers. The double compartmentalization provides optimal protection for the most vulnerable part of the glass, the base. Glassware is completely clean after washing in the glass crate. Due to the coarse perforated side walls and bottom, rinse water and cleaning agents have good access to the glassware. The glass crates have a Euro norm size and can be perfectly combined with other plate racks and stacking crates with Euro norm dimensions. Moreover, the glass crates can be stacked without loss of space on standardized bases, rolling containers, and pallets. For more information, contact our product advisors.
