Glass crate BASIC - 600 x 400 x H 171 mm for 15 glasses - max. height 143 mm - max. Ø 106 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 171 mm
Inwendig (LxBxH)	568 × 368 × 158 mm
Capacity	33 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.117.3x5.UO
Weight (kg)	2,42 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42492E+12
Maximum glass height	143
Maximum Ø glass	106
Pallet quantity	52

Features

Dimensions of the glass are crucial for crate selection; measure height and diameter at the widest point.

Glass crate 600x400 mm, 171 mm high, suitable for glasses with max. height of 143 mm and max. Ø 106 mm.

Choose the right crate based on glass size; opt for a different crate if glass is above 143 mm or much narrower than Ø 106 mm.

Double partition with 15 compartments optimally protects glass feet against breakage; prevents contact between glasses during cleaning, storage, and transportation.

Crate ensures completely clean glassware after cleaning due to coarse perforated side walls and bottom, allowing easy access for rinse water and cleaning agents.

Euronorm glass crates are stackable and combinable with other Euronorm products without space loss; suitable for standardized supports, roll containers, and pallets. Contact our product advisors for more information.

Description

Please note before ordering!

The dimensions of the glass determine the choice of crate. Measure the height of the glass and the diameter at the widest point.

Glass crate 600x400 mm with a height of 171 mm for cleaning, storage, and transportation of glassware and tableware. This crate is suitable for glasses with a maximum glass height of 143 mm and a maximum Ø of 106 mm. The glass size determines which glass crate is most suitable. If the glass is taller than 143 mm or much narrower than Ø 106 mm, please select a different glass crate from this series. We're happy to provide advice.

The glass crate is equipped with a double partition of 15 compartments, offering 15 individual spaces for glasses and cups. The double compartment protects the most fragile part of the glass, the foot, optimally against breakage. The partition ensures that the glasses do not touch each other during cleaning, storage, and transportation. The glassware is completely clean after cleaning in the glass crate. This is due to the coarse perforated side walls and base of the crate, allowing the rinsing water and cleaning agent to easily access the contents.

The Euronorm glass crates are stackable and can be combined with other plate boxes and stacking crates with Euronorm dimensions. Additionally, the glass crates can be stored and transported without losing space on standardized bases, rolling containers, and pallets. For more information, please contact our product advisors.
