Glass crate BASIC - 600 x 400 x H 171 mm for 40 glasses - max. height 143 mm - max. Ø 65 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 171 mm
Inwendig (LxBxH)	568 × 368 × 158 mm
Capacity	33 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.117.5x8.UO
Weight (kg)	2,54 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	143
Maximum Ø glass	65
Pallet quantity	52

Features

Glass dimensions are crucial when choosing the crate; measure height and diameter at the widest point.

Plastic crate with compartments for 40 glasses; dimensions: 600x400 mm, height: 171 mm.

Suitable for glassware and tableware with a maximum height of 143 mm and maximum Ø 65 mm; choose another crate if the glass is larger.

Double compartment provides 40 individual spots for glasses; prevents scratches and breakage during cleaning, storage, and transportation.

Benefits of the double compartment: top and bottom support for glassware with a foot; coarse perforated side walls and bottom for optimal cleaning.

Stackable and combinable with Euronorm products without space loss; suitable for standardized bases, roll containers, and pallets. Contact our product advisors for further information.

Description

Please note before placing your order!

The dimensions of the glass are crucial when choosing the crate. Measure the height of the glass and the diameter at its widest point.

Plastic crate with compartmentalization for 40 glasses. The glass crate measures 600x400 mm and has a height of 171 mm. It's suitable for cleaning, storage, and transportation of glassware and tableware with a maximum glass height of 143 mm and a maximum Ø of 65 mm. The size and layout of the crate are determined by the contents. If the glass is taller than 143 mm or wider than Ø 65 mm, opt for another glass crate in this series. We are happy to provide advice.

The glass crate with double compartmentalization offers 40 individual spaces for glasses. The glasses do not touch each other, ensuring optimal protection against scratches and breakage during cleaning, storage, and transport. The advantage of this glass crate is the double compartmentalization, featuring upper and lower compartments that support glassware with a base. The crate has coarse perforated side walls and a bottom, allowing the cleaning water and detergent to easily reach the contents. As a result, the glassware is entirely clean after washing in the glass crate.

The glass crates are stackable and can be perfectly combined with other plate crates and stackable crates with Euronorm dimensions. Furthermore, the glass crates can be stored and transported without wasting space on standardized supports, roll containers, and pallets. For further information, please contact our product advisors.
