Glass crate BASIC - 600 x 400 x H 198 mm for 12 glasses - max. height 169mm - max. Ø 116mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 198 mm
Inwendig (LxBxH)	568 × 368 × 183 mm
Capacity	28.3 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.120.3x4.UO
Weight (kg)	2,5 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Maximum glass height	169
Maximum Ø glass	116
Pallet quantity	44

Features

- **The dimensions of the glass are crucial when choosing the crate; measure the height and diameter at the widest point.**
- **Plastic glass crate suitable for rinsing, storing, and transporting 12 glasses.**
- **Maximal suitability for glassware with a height of 169 mm and a diameter of Ø 116 mm.**
- **The crate is not suitable if the glass is taller than 169 mm or much narrower than Ø 116 mm; consider alternative crates in the same series.**
- **The glass crate measures 600 x 400 mm and has a height of 198 mm; contains a double compartment with 12 sections.**
- **Advantages of the double compartment: each glass has its own space, prevents contact between glasses, optimal protection for the foot of the glass.**
- **Glasses are optimally protected during storage, transportation, and cleaning in dishwashers thanks to the compartmentalization.**
- **Coarsely perforated side walls and bottom ensure good access for rinse water and detergent, resulting in completely clean glassware after cleaning.**
- **Glass crates are Euronorm certified, compatible with other Euronorm products; can be stacked without space loss on standardized bases, roll containers, and pallets.**
- **For more information, contact our product advisors.**

Description

Please note before placing your order!

The glass dimensions are decisive when choosing the crate. Measure the height of the glass and the diameter at the widest point.

Plastic glass crate for rinsing, storing, and transporting 12 glasses. This crate is suitable for glassware with a maximum height of 169 mm and a maximum Ø of 116 mm. The glass size is crucial in choosing the crate. If the glass is taller than 169 mm or significantly narrower than Ø 116 mm, this crate is not suitable. Please consider our other glass crates in this series.

The glass crate measures 600 x 400 mm and is 198 mm high with a double compartmentalization of 12 compartments. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other, providing optimal protection during storage, transportation, and cleaning in dishwashers. The double compartmentalization optimally protects the most vulnerable part of the glass, the base. The glassware is completely clean after cleaning in the glass crate. Thanks to the coarse perforated side walls and base, the rinse water and cleaning agent have good access to the glassware. The glass crates are in Euronorm format and can be perfectly combined with other plate trays and stackable crates with Euronorm dimensions. Additionally, the glass crates can be stacked on standardized supports, roll containers, and pallets without losing space. For more information, please contact our product advisors.
