Glass crate BASIC - 600 x 400 x H 198 mm for 33 glasses - max. height 169 mm - max. Ø 75 mm

Product specifications

Uitwendig (LxBxH)	600 x 400 x 198 mm
Inwendig (LxBxH)	568 x 368 x 183 mm
Capacity	38.3 liter
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.120.33.UO
Weight (kg)	2,6 kg
Temperature range	-40°C to +70°C
Color	Grey
Bottom	Perforated, reinforced
European Article Number	7424905631696
Maximum glass height	169
Maximum Ø glass	75

Features

Dimensions: 600 x 400 mm with a height of 198 mm.

Capacity: Suitable for storing 33 glasses.

Glass Height: Maximum height of glasses that fit in the crate is 169 mm.

Diameter: Maximum diameter of glasses that fit is Ø 75 mm.

Function: Designed for rinsing, storing, and transporting glassware.

Protection: Prevents contact between glasses to minimize damage.

Cleaning: Coarse perforated side walls and bottom allow rinse water and cleaning agents effective access to the glassware for a clean result.

Compatibility: Euro standard size, stackable without space loss on standardized supports, roll containers, and pallets.

Options: Suitable for glassware with a base, and alternative crate options for different glass sizes are available.

Description

Note before placing your order!

The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at its widest point. Euro standard crate for rinsing, storing, and transporting glassware. The glass crate with compartments accommodates 33 glasses with a maximum height of 169 mm and a maximum Ø of 75 mm. The dimensions of the glassware are decisive in selecting the right glass crate. If the glass is significantly lower than 169 mm or much narrower than Ø 75 mm, then this crate is not suitable. Check out other glass crates in this series for a better fitting crate. This crate has Euro standard dimensions of 600 x 400 mm and is 198 mm high. The glass crate accommodates 33 glasses. Glassware is completely clean after washing in the glass crate. Due to the coarse perforated side walls and bottom, rinse water and cleaning agents have good access to the glassware, resulting in a clean washing outcome. The glasses do not touch each other, ensuring optimal protection of the glassware during storage, transportation, and cleaning in dishwashers. Thanks to the double compartment, this glass crate is highly suitable for glassware with a base. The most vulnerable part of a glass is its base. In this glass crate with upper and lower compartment divisions, even this part of the glass is optimally supported and protected. Planning to transport cups or tumbler glasses? Then a glass crate with a single compartment division is also suitable. The glass crates have a Euro standard size and thus perfectly combine with other plate racks and stacking crates with Euro standard dimensions. Moreover, the glass crates can be stacked without space loss on standardized supports, roll containers, and pallets.
