Glass crate BASIC - 600 x 400 x H 224 mm for 12 glasses - max. height 196 mm - max. Ø 116 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 224 mm
Inwendig (LxBxH)	568 × 368 × 210 mm
Capacity	43.9 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.122.3x4.UO
Weight (kg)	2,56 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced (base implementation no. 15)
European Article Number	7,42491E+12
Maximum glass height	196
Maximum Ø glass	116
Pallet quantity	40

Features

- **Specifically designed for 12 glasses with a maximum height of 196 mm and maximum diameter of Ø 116 mm.**
- **Crate dimensions are 600 mm in length, 400 mm in width, and a height of 224 mm.**
- **Each glass has its own compartment to avoid contact, preventing damage during storage, transport, and cleaning.**
- **The double compartmentalization protects the most vulnerable parts of the glasses, especially the base, for optimal protection.**
- **Suitable for rinsing, storing, and transporting glassware, ensuring complete cleaning and glass protection.**
- **The perforated design of side walls and bottom allows good access for rinse water and cleaning agents, enabling thorough cleaning.**
- **Euro norm format, allowing perfect combination with other standardized crates and supports.**
- **Stackable without space loss on standardized supports, rolling containers, and pallets.**
- **For further details or inquiries, contact the product advisor for more information.**

Description

Attention before placing your order!
The dimensions of the glass determine the choice of crate. Measure the height of the glass and its diameter at the widest point. Plastic glass crate for rinsing, storing, and transporting 12 glasses. This crate is suitable for glassware with a maximum height of 196 mm and a maximum Ø of 116 mm. The glass size is crucial in selecting the crate. If the glass is taller than 196 mm or much narrower than Ø 116 mm, this crate is not suitable. Please consider our other glass crates in this series. The glass crate measures 600 x 400 mm, stands 224 mm tall, and has a double compartment with 12 sections. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other, thus providing optimal protection during storage, transport, and cleaning in dishwashers. The double compartment design optimally protects the most vulnerable part of the glass, the base. Glassware is fully cleaned after washing in the glass crate. The coarse perforated side walls and bottom allow the rinse water and cleaning agents excellent access to the glassware. These glass crates have a Euro norm size, making them perfect for combining with other plate crates and stacking crates with Euro norm dimensions. Moreover, the glass crates can be stacked without wasting space on standardized supports, rolling containers, and pallets. For more information, please contact our product advisor.
