Glass crate BASIC - 600 x 400 x H 224 mm for 15 glasses - max. height 196 mm - max. Ø 106 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 224 mm
Inwendig (LxBxH)	568 × 368 × 210 mm
Capacity	43.9 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.122.3x5.UO
Weight (kg)	2,64 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced (base implementation no. 15)
European Article Number	7,42492E+12
Maximum glass height	196
Maximum Ø glass	106
Pallet quantity	40

Features

- **Dimensions: 600 x 400 mm with a height of 224 mm.**
- **Designed for storing, cleaning, and transporting glasses.**
- **Suitable for 15 glasses.**
- **Maximum glass height: 196 mm.**
- **Maximum diameter: Ø 106 mm.**
- **Double division of 15 compartments to place and protect each glass individually.**
- **The base of the glass, the most vulnerable part, is optimally protected against breakage due to the compartmentalization.**
- **Glasses do not touch each other during cleaning, storage, and transport thanks to the compartments.**
- **Coarsely perforated side walls and bottom allow rinse water and cleaning agents to easily reach the contents.**
- **Stackable according to Euro standards and combinable with other bins and crates of the same dimensions.**
- **Can be stored and transported without space loss on standardized supports, roll containers, and pallets.**

Description

Attention before placing your order!
The dimensions of the glass determine the choice of crate. Measure the height of the glass and the diameter at its widest point. Glass crate 600x400 mm with a height of 224 mm for cleaning, storage, and transportation of glassware and dishes. This crate is suitable for glasses with a maximum glass height of 196 mm and a maximum Ø of 106 mm. The glass size determines which glass crate is most suitable. If the glass is taller than 196 mm or much narrower than Ø 106 mm, choose another glass crate in this series. We are happy to provide advice. The glass crate is equipped with a double division of 15 compartments, providing 15 individual spaces for glasses and cups. Due to the double compartmentalization, the most vulnerable part of the glass, the base, is optimally protected against breakage. The glassware does not touch each other during cleaning, storage, and transport due to the compartmentalization. After cleaning, the glassware in the glass crate is completely clean. This is due to the coarsely perforated side walls and bottom of the crate, allowing rinse water and cleaning agents to easily reach the contents. The Euro standard glass crates are stackable and can be combined with other plate bins and stacking crates with Euro standard dimensions. Moreover, the glass crates can be stored and transported without losing space on standardized supports, roll cages, and pallets. For more information, please contact our product advisor.
