Glass crate BASIC - 600 x 400 x H 250 mm for 12 glasses - max. height 222 mm - max. Ø 116 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 250 mm
Inwendig (LxBxH)	568 × 368 × 234 mm
Capacity	48.9 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.125.3x4.UO
Weight (kg)	2,64 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	222
Maximum Ø glass	116
Pallet quantity	36

Features

- **Glass dimensions crucial for crate selection; measure glass height and widest point diameter.**
- **Plastic glass crate designed for washing, storing, and transporting 12 glasses.**
- **Suitable for glassware with max height of 222 mm and max Ø of 116 mm.**
- **Inadequate if glass significantly shorter than 222 mm or narrower than Ø 116 mm; explore other crates in this series.**
- **600 x 400 mm glass crate, 250 mm high, double compartment with 12 sections ensuring each glass has its own unit.**
- **Prevents glass contact; optimal protection during storage, transport, and dishwasher cleaning.**
- **Double compartment safeguards most fragile part, the glass foot.**
- **Glassware fully clean after cleaning in crate due to coarse perforated sidewalls and bottom for efficient access of rinse water and cleaning agent.**
- **Euronorm-sized glass crates perfect match for other Euronorm-sized dish bins and stackable crates.**
- **Stackable without space loss on standardized supports, roll containers, and pallets for efficient storage and transport.**
- **Contact our product advisors for further details.**

Description

Pay attention before placing your order!

The dimensions of the glass are crucial in choosing the crate. Measure the height of the glass and the diameter at the widest point.

Plastic glass crate for washing, storing, and transporting 12 glasses. This crate is suitable for glassware with a maximum height of 222 mm and a maximum Ø of 116 mm. The glass size is crucial in choosing the crate. If the glass is much lower than 222 mm or much narrower than Ø 116 mm, then this crate is not suitable. Check out our other glass crates in this series.

The glass crate measures 600 x 400 mm and is 250 mm high with a double compartment of 12 sections. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other, ensuring optimal protection during storage, transport, and cleaning in dishwashers. The double compartment optimally protects the most vulnerable part of the glass, the foot.

The glassware is completely clean after cleaning in the glass crate. Due to the coarsely perforated side walls and bottom, the rinse water and cleaning agent have good access to the glassware. The glass crates have a Euronorm size, allowing perfect compatibility with other plate bins and stackable crates with Euronorm dimensions. Moreover, the glass crates can be stacked without loss of space on standardized supports, roll containers, and pallets. For more information, please contact our product advisors.
