Glass crate BASIC - 600 x 400 x H 250 mm for 15 glasses - max. height 222 mm - max. Ø 106 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 250 mm
Inwendig (LxBxH)	568 × 368 × 234 mm
Capacity	48.9 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.125.3x5.UO
Weight (kg)	2,7 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42493E+12
Maximum glass height	222
Maximum Ø glass	106
Pallet quantity	36

Features

- **Glass dimensions are crucial for crate selection; measure the height and diameter at the widest point.**
- **Glass crate measuring 600x400 mm with a height of 250 mm for cleaning, storage, and transportation of glassware and tableware.**
- **Suitable for glasses with a maximum glass height of 222 mm and maximum Ø of 106 mm.**
- **Choose another crate in the series if the glass is much shorter than 222 mm or much narrower than Ø 106 mm; expert advice available.**
- **Double compartmentalization provides 15 individual spots for glasses and cups, optimal protection for the glass foot against breakage.**
- **No contact between glasses due to compartmentalization during cleaning, storage, and transport; crate ensures fully clean glassware through perforated sidewalls and bottom.**
- **Euronorm glass crates are stackable and compatible with other bins and crates with Euronorm dimensions.**
- **Space-saving storage and transportation possible on standardized supports, roll containers, and pallets; consult our product advisors for more information.**

Description

Please note before placing your order!

The glass dimensions determine the choice of crate. Measure the height of the glass and the diameter at the widest point.

Glass crate sized 600x400 mm with a height of 250 mm for cleaning, storage, and transportation of glassware and dishes. This crate is suitable for glasses with a maximum glass height of 222 mm and a maximum Ø 106 mm. The glass size determines which glass crate is most suitable. If the glass is much lower than 222 mm or much narrower than Ø 106 mm, choose another glass crate in this series. We are happy to advise you.

The glass crate is equipped with a double division of 15 compartments, providing 15 individual spots for glasses and cups. Thanks to the double division, the most vulnerable part of the glass, the foot, is optimally protected against breakage. The compartments prevent the glasses from touching during cleaning, storage, and transportation. The glassware is fully clean after cleaning in the glass crate. This is due to the coarsely perforated sides and bottom of the crate, allowing the rinse water and cleaning agent to easily reach the contents.

The Euronorm glass crates are stackable and combinable with other plate trays and stackable crates with Euronorm dimensions. Moreover, the glass crates can be stored and transported without loss of space on standardized bases, roll containers, and pallets. For more information, please contact our product advisors.
