Glass crate BASIC - 600 x 400 x H 250 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 250 mm
Inwendig (LxBxH)	568 × 368 × 234 mm
Capacity	48.9 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.125.0105.15
Weight (kg)	1,8 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42494E+12
Colorcode	RAL 7040
Pallet quantity	36

Features

- **Food-safe bread crate / stacking crate**
- **Ideal for bakeries**
- **Equipped with reinforced side walls and bottom**
- **Features coarse perforated walls**
- **Has four open handles**

Description

Very strong stacking crate in Euro standard size 600 x 400 mm. The stacking crate is made of food-grade plastic and has a temperature resistance from -40°C to 70°C. The side walls and bottom are perforated, providing optimal ventilation for the contents. For these reasons, the stacking crate is highly suitable for applications in the (industrial) food sector, the textile industry, the hospitality sector, and in bakeries. Equipped with compartmentalization, the stacking crate becomes an ideal glass crate. The stacking crate has a reinforced bottom, and even under heavy loads and extreme conditions, the bending is nearly negligible. Thanks to its robust construction and standardized dimensions, it is an efficient stacking crate for numerous applications. The stacking crate can be perfectly combined with other Euro standard stacking bins and crates, as well as with standardized pallets, roll containers, and mobile bases.
