Glass crate BASIC - 600 x 400 x H 280 mm for 12 glasses - max. height 255 mm - max. Ø 116

Product specifications

Uitwendig (LxBxH)	600 × 400 × 280 mm
Inwendig (LxBxH)	568 × 368 × 271 mm
Capacity	57 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.128.3x4.UO
Weight (kg)	2,84 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,42491E+12
Maximum glass height	255
Maximum Ø glass	116
Pallet quantity	32

Features

- **Glass dimensions are crucial when choosing the crate; measure the height and diameter of the glass at the widest point.**
- **Plastic glass crate for rinsing, storing, and transporting 12 glasses with a maximum height of 255 mm and maximum Ø of 116 mm.**
- **Crate selection depends on glass size; if the glass is much lower than 255 mm or much narrower than Ø 116 mm, this crate is not suitable.**
- **Glass crate measures 600 x 400 mm and 280 mm high with a double compartmentalization of 12 sections; each glass has its own space.**
- **No contact between glasses; optimal protection during storage, transport, and cleaning in dishwashers.**
- **Double compartmentalization protects the glass foot; glassware is completely clean after cleaning due to coarse perforated side walls and bottom.**
- **Stackable glass crates with Euronorm dimensions; perfectly compatible with other plate bins and stackable crates with Euronorm measurements.**
- **Suitable for stacking without space loss on standardized supports, roll containers, and pallets.**
- **For more information, contact our product advisors.**

Description

Please note before placing your order!

The glass dimensions are decisive when choosing the crate. Measure the glass height and the diameter at its widest point.

Plastic glass crate for rinsing, storing, and transporting 12 glasses. This crate is suitable for glassware with a maximum height of 255 mm and a maximum Ø of 116 mm. The glass size is crucial in selecting the crate. If the glass is much shorter than 255 mm or much narrower than Ø 116 mm, this crate is not suitable. Please check our other glass crates in this series.

The glass crate measures 600 x 400 mm and is 280 mm high, with a double compartmentalization of 12 sections. Thanks to this compartmentalization, each glass has its own unit. The glasses do not touch each other, thus being optimally protected during storage, transportation, and cleaning in dishwashers. The double compartmentalization optimally protects the most vulnerable part of the glass, the foot. The glassware is completely clean after cleaning in the glass crate. Due to the coarsely perforated side walls and bottom, the rinse water and cleaning agent have good access to the glassware. The glass crates have a Euronorm size and are therefore perfectly combinable with other dish racks and stacking crates with Euronorm dimensions. Moreover, the glass crates can be stacked on standardized supports, roll containers, and pallets without losing space. For more information, please contact our product advisors.
