Glass crate BASIC - 600 x 400 x H 280 mm for 40 glasses - max. height 255 mm - max. Ø 65 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 280 mm
Inwendig (LxBxH)	568 × 368 × 271 mm
Capacity	57 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.128.5x8.UO
Weight (kg)	3,04 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	255
Maximum Ø glass	65
Pallet quantity	32

Features

- **Plastic crate with compartments for 40 glasses, measuring 600x400 mm and 280 mm in height.**
- **Suitable for cleaning, storage, and transportation of glassware and dishes with a maximum glass height of 255 mm and maximum Ø of 65 mm.**
- **Crate's size and layout determined by its content; opt for another crate in this series if the glass significantly deviates from these measurements. Expert advice is provided.**
- **Double-compartment glass crate offering 40 individual slots for glasses, preventing scratches and breakage during cleaning, storage, and transport.**
- **Features upper and lower compartmentalization to properly support glassware bases.**
- **Glassware is entirely clean post-cleaning in the crate, facilitated by coarse perforations on the crate's sidewalls and bottom, allowing easy access for rinse water and cleaning agents.**
- **Stackable glass crates that seamlessly integrate with other Euronorm plate bins and stackable crates.**
- **Can be stored and transported without losing space on standardized supports, roll containers, and pallets.**
- **For further details, reach out to our product advisors.**

Description

Please pay attention before placing your order!

The glass dimensions are crucial in selecting the crate. Measure the height of the glass and the diameter at the widest point.

Plastic crate with compartments for 40 glasses. The glass crate measures 600x400 mm and has a height of 280 mm. It is suitable for cleaning, storage, and transportation of glassware and dishes with a maximum glass height of 255 mm and a maximum Ø of 65 mm. The crate's size and layout are determined by its contents. If the glass is much shorter than 255 mm or wider than Ø 65 mm, please choose another glass crate in this series. We are happy to assist you with advice.

The glass crate with double compartmentalization provides 40 individual spaces for glasses. The glasses do not touch each other, thus ensuring optimal protection against scratches and breakage during cleaning, storage, and transportation. The crate features both upper and lower compartmentalization, providing proper support for glasses with a base. The glassware is completely clean after washing in the glass crate. This is due to its coarsely perforated side walls and bottom, allowing the rinse water and cleaning agent to easily reach the contents of the crate.

The glass crates are stackable and can be seamlessly combined with other dish racks and stackable crates with Euronorm measurements. Additionally, the glass crates can be stored and transported without losing space on standardized bases, roll containers, and pallets. For further information, please contact our product advisors.
