Glass crate BASIC - 600 x 400 x H 99 mm for 12 glasses - maximum glasheight 72 mm - maximum Ø 116 mm

Product specifications

Uitwendig (LxBxH)	600 × 400 × 99 mm
Inwendig (LxBxH)	568 × 368 × 85 mm
Capacity	17.8 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.108.3x4.U
Weight (kg)	1,6 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	72
Maximum Ø glass	116
Pallet quantity	96

Features

- **The dimensions of the glass are crucial when selecting the crate: measure the height and diameter at the widest point.**
- **Euronorm glass crate designed for rinsing, storing, and transporting 12 glasses or cups.**
- **Suitable for glassware and tableware with a maximum height of 72 mm and Ø 116 mm diameter; otherwise not suitable.**
- **Equipped with 12 compartments to give each glass its own unit, preventing collisions and maximizing protection during storage, transport, and dishwasher cleaning.**
- **Coarsely perforated side walls and bottom provide excellent access to rinse water and detergent for a clean washing result.**
- **Compatible with Euronorm dimensions, allowing perfect combination with other trays and crates.**
- **Stackable without space loss on standardized supports, roll containers, and pallets.**
- **For further information, please contact our product advisor.**

Description

Attention before placing an order!

The dimensions of the glass are crucial when choosing the crate. Measure the height of the glass and the diameter at the widest point.

Euronorm glass crate for rinsing, storing, and transporting 12 glasses or cups. This crate is suitable for glassware and tableware with a maximum height of 72 mm and a maximum Ø of 116 mm. The glass size is decisive when choosing the crate. If the glass is taller than 72 mm or much narrower than Ø 116 mm, then this crate is not suitable. Please check our other glass crates in this series. The glass crate with dimensions of 600x400xH99 mm is equipped with a subdivision of 12 compartments. Thanks to this division, each glass has its own unit. The glasses do not touch each other and are therefore optimally protected during storage, transport, and cleaning in dishwashers. The side walls and bottom of the crate are roughly perforated. This allows the rinse water and detergent to have good access to the glassware, achieving a clean washing result. The glass crates have a Euronorm format and are therefore perfectly combinable with other plate trays and stacking crates with Euronorm dimensions. Furthermore, the glass crates can be stacked without losing space on standardized supports, roll containers, and pallets. For more information, please contact our product advisor.
