Product specifications

Uitwendig (LxBxH)	600 × 400 × 99 mm
Inwendig (LxBxH)	568 × 368 × 85 mm
Capacity	17.8 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.108.4x6.U
Weight (kg)	1,5 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
European Article Number	7,4249E+12
Maximum glass height	72
Maximum Ø glass	85
Pallet quantity	96

Features

- **Glass dimensions are crucial in choosing the crate: measure glass height and widest point diameter.**
- **Plastic crate designed for rinsing, storing, and transporting glassware.**
- **Crate with compartmentalization accommodates 24 glasses/cups with max height of 72 mm and max Ø of 85 mm.**
- **Glassware dimensions determine crate height and layout; unsuitable if glass exceeds 72 mm in height or significantly narrower than Ø 85 mm.**
- **Consider alternative glass crates in the series for a better fit.**
- **Euronorm-sized crate: 600 x 400 mm and 99 mm high, with a compartmentalization for 24 glasses ensuring each glass has its own unit and doesn't touch others.**
- **Optimal protection of glassware during storage, transport, and dishwasher cleaning.**
- **Coarsely perforated side walls and bottom enable efficient access for rinse water and detergent, resulting in a clean washing result.**
- **Glass crates compatible with Euronorm dimensions, easily combinable with other trays and stacking crates.**
- **Stackable without space loss on standardized supports, roll containers, and pallets.**
- **For additional information, contact our product advisors.**

Description

Please note before placing your order!

The dimensions of the glass are crucial in choosing the crate. Measure the height of the glass and the diameter at the widest point.

Plastic crate for rinsing, storing, and transporting glassware. The crate with compartmentalization accommodates 24 glasses or cups with a maximum height of 72 mm and a maximum Ø of 85 mm. The dimensions of the glassware determine the height and layout of the glass crate. If the glass is taller than 72 mm or much narrower than Ø 85 mm, then this crate is not suitable. Check out our other glass crates in this series for a more suitable fit.

This crate has a Euronorm size of 600 x 400 mm and is 99 mm high. Inside the glass crate, there is a compartmentalization where 24 glasses can be placed. As a result, each glass has its own unit, and they do not touch each other. The glassware is optimally protected during storage, transport, and cleaning in dishwashers. Thanks to the coarsely perforated side walls and bottom, the rinse water and detergent have good access to the glassware, resulting in a clean washing result.

The glass crates have a Euronorm size and are therefore perfectly combinable with other plate trays and stacking crates with Euronorm dimensions. Additionally, the glass crates can be stacked without space loss on standardized supports, roll containers, and pallets. For more information, please contact our product advisors.
