Glass crate BASIC - 600 x 400 x H 99 mm for 33 glasses - max. height 72 and max. Ø 75

Product specifications

Uitwendig (LxBxH)	600 × 400 × 99 mm
Inwendig (LxBxH)	368 × 568 × 85 mm
Capacity	17.8 liter
Color	Grey
Handles	Open (four openings)
Sidewalls	Perforated
Material	HDPE
Article number	30.108.33.U
Weight (kg)	1,64 kg
Temperature range	-40°C to +70°C
Bottom	Perforated, reinforced
Maximum glass height	72
Maximum Ø glass	75
Pallet quantity	96

Features

- **Dimensions: 600 x 400 mm with a height of 99 mm.**
- **Capacity for 33 glasses.**
- **Suitable for glasses with a maximum height of 72 mm and a maximum diameter of Ø 75 mm.**
- **Designed for storage, cleaning, and transport of glasses.**
- **Euro standard size for easy combination with other bins and crates.**
- **Perforations in side walls and bottom for proper water drainage and cleaning.**
- **Protects glasses from damage during storage, transport, and cleaning.**
- **Stable stacking without space loss on standardized frames, roll cages, and pallets.**

Description

Please note before placing your order!
The dimensions of the glass determine the choice of the crate. Measure the height of the glass and the diameter at the widest point. Plastic glass crate 600x400 mm with a height of 99 mm. Suitable for cleaning, storage, and transport of glasses and cups with a maximum glass height of 72 mm and maximum Ø 106 mm. The size of the glass determines which glass crate is suitable. If the glass is taller than 72 mm or much narrower than the Euronorm crate for rinsing, storing, and transporting glassware. The divided glass crate accommodates 33 glasses with a maximum height of 72 mm and maximum Ø 75 mm. The dimensions of the glassware determine the choice for the correct glass crate. If the glass is much lower than 72 mm or much narrower than Ø 75 mm, then this crate is not suitable. Check out the other glass crates in this series for a better fitting crate. This crate has Euronorm format 600 x 400 mm and is 99 mm high. The glass crate accommodates 33 glasses. The glassware is completely clean after washing in the glass crate. Due to the coarsely perforated side walls and bottom, the rinse water and cleaning agent have good access to the glassware. This achieves a clean washing result. The glasses do not touch each other, thus ensuring optimal protection of the glassware during storage, transportation, and cleaning in dishwashers. The glass crates have Euronorm dimensions and therefore perfectly combine with other plate trays and stacking crates with Euronorm dimensions. Moreover, the glass crates can be stacked without space loss on standardized frames, roll containers, and pallets.
