European Article Number	7,42492E+12
Colorcode	RAL 7040
Pallet quantity	96

Features

Also available as a complete basket including compartment dividers in various designs on our online shop.

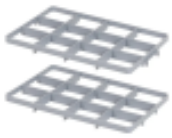

Description

Glass crate (600 x 400 x H 99 mm - 17.8 liters) from the BASIC glass crate series. Highly suitable for transporting and rinsing cups and glasses. Maximum glass height: 72 mm. This type of glass crate comes with 4 open handles and can be equipped with a compartment divider. For available compartment dividers, refer to 'Accessories'. The food-safe crate has a coarse perforated and reinforced bottom, along with finely perforated side walls. This design facilitates easy access for rinse water and cleaning agents to the cups or glasses. Equipped with compartment dividers, the BASIC glass crates are ideal for dual use: as rinsing crates and storage crates. The BASIC glass crates stack easily and very stably with our Euro containers and have the exact same color as the stackable crates from the SOLID LINE. This modern and robust crate complements perfectly with our Euro containers and roll containers and is furthermore well suited for universal use.
