Article number: 10.3.929.3

Insert bin 1/2 - PRO - 554 x 177 x H 99 mm

Product specifications

Uitwendig (LxBxH)	554 × 177 × 99 mm
Inwendig (LxBxH)	542 × 162 × 93 mm
Color	Grey
Handles	Internal grab rims
Sidewalls	Closed
Material	PP
Article number	10.3.929.3
Weight (kg)	0,5 kg
Temperature range	-30°C to +80°C
Bottom	Closed
European Article Number	7,4249E+12

Features

- **Usable as an insert bin in Euronorm 600 x 400 mm stacking bin, from an external height of 120 mm**
- **Internal grip rims simplify the removal of insert bins**
- **Insert bins may be stacked together**
- **The insert bins are manufactured with a reinforced base**
- **Insert bins may be subdivided variously**

Description

Insert bin made of food-grade plastic. Type PRO in size 554 x 177 x H 99 mm. Using insert bins allows you to easily create compartmentalization in Euro-standard stacking containers sized 600 x 400 mm. Two insert bins of 554 x 177 x H 99 mm fit into these containers. These insert bins can be used in 600 x 400 mm stacking containers with an external height starting from 120 mm. Insert bins are available in various dimensions and can be combined with each other in Euro-standard stacking containers. This allows you to create a layout that suits the products you want to store. No assembly tools are required to create compartments with insert bins. Simply place the insert bins inside the stacking container. The layout is flexible and can be changed at any time. Insert bins, type PRO, have an internal gripping edge, making them easy to remove. In PRO insert bins, the transition from the inner wall to the bottom is chamfered, ensuring a seamless transition without seams. This design allows for easy cleaning of the inside of these insert bins as there are no seams for dirt to accumulate. The insert bins have a reinforced bottom, enabling them to store heavier goods without issues. Insert bins are stackable among themselves; this applies to bins of the same size and also for smaller bins on larger ones.
