Description

Isolation box 400 x 300 x H 173 mm, with removable clamp lid. The insulation box has a capacity of 12 liters. The box is suitable for keeping the cargo warm or cool for as long as possible, thanks to its well-insulating walls and bottom. The insulation boxes are made of a hybrid plastic called Piocelan. This is EPS (expanded polystyrene) with additives. Due to these additives, the material is less brittle and breakable than standard EPS material. Moreover, Piocelan plastic has good insulating properties. The height of the box without the lid is 160 mm.
