Description

Plastic case measuring 400 x 300 mm with a height of 190 mm. The case is stackable with other Euronorm cases and containers. Due to its standardized dimensions, the case perfectly fits with a standardized pallet, rolling container, or mobile base. The case consists of a container with a hinged lid and two snap-lock closures. This ensures a secure closure during transport, allowing the cargo to be transported safely and dust-free. We provide seals and label holders as accessories for the cases.
