Description

Plastic export pallet 1200 x 800 mm. Made from regenerated material. The lightweight pallet is highly suitable for hygienic and trouble-free goods export. Also suitable for loading packed foodstuffs. The export pallet is equipped with 9 feet and has a rim. The export pallet is impact-resistant, stable, and nestable. The nestable export pallets can be stacked together in an empty state, saving space. Unlike wooden pallets, plastic pallets do not absorb moisture, pests, and bacteria. Pallet certificates for IPPC countries are unnecessary for the plastic export pallet.
