## Description

The industry/block pallet of type 1212H6RR is a robust and reliable choice for various industrial applications. With dimensions of 1200 x 1200 x H 170 mm, this pallet provides ample space and stability for the safe transportation and storage of goods in warehouses, factories, and distribution centers.

Manufactured from regenerated material, this pallet contributes to sustainable logistical practices by using recycled raw materials, thereby reducing the ecological impact.

The pallet is equipped with 6 pallet runners, each with raised edges of 5 mm high. These raised edges serve as an additional safety measure to prevent loads from shifting during transport, preserving the integrity of the goods.
