Description

Long plastic pallet wedge (1105 x 120 x 60 mm) suitable for use with our H and CR plastic pallet series. The pallet cone is inserted into the pallet deck and is centered by means of centering lugs that lock into the open deck sections. Since each type of pallet has a different top deck layout, we provide a customized cone for each type of pallet. The cone is available for Euro-sized pallets of type H1 and CR1, and for industry (ISO) sized pallets of type H3, CR3, and CR3-5.
